August 17, 2016

Dear Parent or Guardian:

The CA Healthy Schools Act of 2000 requires that all schools provide parents and guardians with an annual, written notification of expected pesticide use on school sites. The notification (on the reverse) identifies the active ingredient or ingredients in each pesticide, herbicide and fungicide product that we may be using on our campuses as well as the expected application schedule. Also included is the Internet address (<http://www.cdpr.ca.gov>) for further information on pesticides and their alternatives.

Parents and guardians may request 72-hour prior notification of individual pesticide applications at the school site. *If you would like to stay on our current notification list or would like to be added, please complete and return this form to the school office. This must be done each year.*

If you have any questions, please contact the district office at (530) 367-2966.

Sincerely,

Shannon Jacinto
Superintendent

REQUEST FOR INDIVIDUAL PESTICIDE APPLICATION NOTIFICATION

I understand that, upon request, the school district is required to supply information about individual pesticide applications at least 72 hours before application. I would like to be notified before each pesticide, herbicide or fungicide application at school that is not indicated on the application schedule on the following page.

I would prefer to be contacted by (circle one): **U.S. Mail** OR **Email**
(Phone used for urgent situations only)

Please print legibly: Date: _____

Name: _____

Address: _____

City, State, Zip: _____
